

Our Vision is to offer the finest trades training possible, to support national standards and ensure a strong electrical industry.

Why Choose Our ELTT Course?

We offer a comprehensive combination of technical and practical training to prepare you for apprenticeship within the electrical construction industry.

When you join our program, you join a team. We care about our students. You get the most highly-qualified instructors in the electrical training field and the attention you need to do your best.

The EJTC is the best route for entry into a career as a skilled electrician in BC. Through our partnership with the IBEW Local 213, our signatory contractors get preferred access to graduates of our program.

As an EJTC apprentice and member of the IBEW Local 213, you will qualify for union wages, benefits and continued skills upgrading while on the job.

A Bright Future The Electrical Joint Training Committee ELTT Course

The EJTC Electrical ELTT course has
SkilledTradesBC designation

Our school is accredited with the
Private Training Institutions Branch
(PTIB)

Electrical Entry Level Trades Training Program

A Career As An Electrician

**ELECTRICAL JOINT
TRAINING COMMITTEE**

What is an ELTT Course?

The Entry Level Trades Training (ELTT) course provides a combination of electrical theory and practical training to prepare you for an apprenticeship in the electrical construction industry.

Participants who successfully complete the course receive a certificate and credit for Level 1 technical training related to the Construction Electrician (Electrical) apprenticeship program.

Training topics include Electrical Theory and Code. *Safety Training Awareness* topics include: Confined Space; Fall Protection; Ladder Safety; Lockout Procedures; and Transportation of Dangerous Goods (TDG).

Students will complete Site Ready Certification which includes WHMIS- 2015 at no extra cost.

ELTT is Your Ticket to an Apprenticeship

Graduates of our Electrical ELTT course are highly sought-after and in demand! As the EJTC is a partnership between the IBEW Local 213 Union and the Electrical Contractors Association of BC (ECABC), once the program ends, we select full-time apprenticeship candidates, based on work availability.

A Bright Future

The Electrical Joint Training Committee ELTT Course

The ELTT course is offered six times a year

January, March, May, July, September and November.

We do not keep a waiting list. Instead, we ask interested candidates to apply for the course currently being advertised on our website. Follow the heading under "Electrical Foundation", where you can submit an application under "Apply Now".

Prerequisites

English 12 (or equivalent)
Precalculus 11 (or Principles of Math 11)
Physics 11

Commitment

The Electrical ELTT course is a full-time course that consists of 15 weeks of technical training at our training facility followed by 10 weeks of paid work experience.

Course Location and Fees

Please visit our website for up to date information.

www.ejtc.org

How to Apply?

In order to apply for the ELTT course, you must submit the following:

- A completed application form ([available here](#)).
- A copy of your official secondary school transcript showing prerequisites successfully completed.
- An up-to-date resume.

What Happens After You Apply?

If you have met the prerequisites, you will be contacted about the academic placement exam. We will tell you when the exam is, and what you need to do to prepare.

Those who pass the exam will be invited to an interview with the Electrical Joint Training Committee representatives, who will then select (maximum) 16 students for the next ELTT program.
